- * **Master's Degree in Computer applications stream 2021-2023**
AKS University- MP
- * **Bachelor's Degree in Computer applications stream 2018-2021**
AKS University- MP
- * **Certified in Diploma in Computer applications 2018 from M.C.University**

Projects

* **Wordpress Website for Client (2021)**

"Developed and designed a custom Wordpress website for a client, utilizing responsive design to ensure optimal viewing on multiple devices. Implemented various plugins and widgets to enhance website functionality, such as contact forms, social media integration, and SEO optimization. Managed and maintained the website to ensure smooth operation and timely updates. Collaborated with the client to gather requirements and provided training on how to effectively manage the site."

* **Frappe Erp Tool (2023)**

Frappe ERP is a web-based Enterprise Resource Planning software that can be hosted on an Amazon Web Services (AWS) Ubuntu Server. In AWS, you can launch an Ubuntu instance and install the Frappe ERP system on it to host the software and manage your business processes from a centralized platform. This setup provides scalability, reliability, and security benefits through AWS's infrastructure and services.
